

Serial No. 08/216,506

Claim 19, line 4, before "recombinantly", insert
--isolated--;

last line, change "intact, native human papilloma-
virus virions" to --intact human papillomavirus virions--.

Claim 50, line 2, insert --isolated" before "recombinant";
last line, change "intact, native human papilloma-
virus virions" to --intact human papillomavirus virions--.

Claim 63, line 1, change "A recombinantly" to --An isolated
recombinantly--.

line 4, change "intact, mature human papilloma-
virus viruses" to --intact human papillomavirus virions--.

Also, please add the following claims:

64. An isolated recombinantly produced human papillomavirus
(HPV) L1 protein, comprising a protein which specifically binds
to conformational antibodies which react with an L1 protein
expressed on the surface of an intact HPV virion.

65. The isolated HPV L1 protein of Claim 64, which is
selected from the group consisting of HPV-1, HPV-2, HPV-3a, HPV-
4, HPV-5, HPV-6b, HPV-7, HPV-8, HPV-9, HPV-10, HPV-11a, HPV-12,
HPV-13, HPV-16, and HPV-18.
